Issue 11, January – March, 2009

Only the first quarter of the year has passed, but psg has already accomplished significant milestones! We are once again proving that as an organization we are among the best in our field. We have much to be proud of and grateful for! Let us all give ourselves a well-deserved pat on the back and continue to keep up the good work!

Nortel and Oracle Australia

The Nortel and Oracle offices, both located in Perth, Australia have been successfully completed and turned over on time and within tight client budgets! The design for Nortel Perth was accomplished by the Singapore/Philippine teams, while the construction was supervised by the Perth team. This successful collaboration resulted in the sleek and sophisticated look that the Nortel offices now showcase. As for the Oracle offices, Energy efficient lighting was incorporated into the design which adheres to our commitment to environmental causes. (see photos)

ISO Certification

psg is ISO certified! To be ISO certified means that psg has consistently met specific requirements that only those who are committed to quality and excellence are officially recognized for. We have been accredited for our compliance with ISO standards for the following activities:

1. Provision of building project and construction management services
2. Provision of office facilities management services
3. Provision of interior design services

This significant accomplishment is another reason to celebrate and continue pursuing the path of excellence!
