CELEBRATING MOTHER EARTH

World Environment Day was celebrated worldwide on June 05, 2008 to commemorate the importance of nature's gifts, and the importance of ensuring its survivability. Countries all around the world contributed to the global effort to save our environment. Whether their contributions were big or small, the overall impact was significant. In order to continue making remarkable strides, we should all do our part. Have you done yours?

Project Manager

Malaysia

Rahman Abdul B. Mohd
Project Manager

Let's Meet Down Under!

The Director's of psg recently held their annual meeting in Sydney, Australia where they shared current plans and accomplishments and future goals for their respective areas of responsibility. It was a successful event held June 27 to July 1, 2008, which included a climb on the SYDNEY HARBOR BRIDGE.

Juniper Beijing L5

When we think of Beijing these days, the first thing that comes to mind is the Olympics. However, for psg, the Juniper Beijing R&D L5 project tops the list alongside that! Hats off to the project heads whose hands-on effort ensured the completion of another psg undertaking!

Another Milestone in Qatar

A virtual office is now a reality in Qatar. This 2 level project (Levels 14 and 15) was completed in May and can be found at the Commercial Bank Plaza, West Bay, Doha, Qatar. This corporate facility is another milestone in terms of our accomplishments.

CoreNet Exhibit

psg was one of the major sponsors of the CoreNet Global Summit, Sydney held on the 29th of June 2008. During the exhibit, a booth was put up to showcase psg's key works.

This month has been quite challenging for all of us at psg... in a good way. We are as usual very busy which means that we are continuing to receive numerous projects. The Philippines too, has had its share of hurdles, especially with the ongoing renovation of our office which will house majority of our Design Team in the near future. Like all the other challenges we've previously come across, I see this as a minor setback and look forward to sharing the final output with you. As per usual, if you should have any updates, comments and/or suggestions, please e-mail me at dante.pascual@psgasia.com
